Heaven Repository (HR) Icons

Location: surfaces.pck.files\surfaces\qshop\1

In this location you can find the icons used for gshop files. With a gshop editor this is the file names you want to place with visuals for the items you purchase from HR. (Items will have a copy in this location regardless of if you've added them to item icons in "element\surfaces.pck.files\surfaces\iconset" and set in elements).
